	K. Giacalone, ERRD-SPB	L. Quinn, NJDEP
	RST	W. Atkinson, GCDOH

POLREP NUMBER: 3

**II. BACKGROUND**

Site Number:	KD
Delivery Order Number:	EP-W-04-054-0027
Response Authority:	CERCLA
CERCLIS Number:	NJD011770013
NPL Status:	non-NPL
State Notification:	NJDEP notified
Approval Status:	approved
Action Memorandum Status:	September 30, 2005
Start Date:	March 13, 2006

**III. SITE INFORMATION**

**A. Site Category**

Former battery disposal area, active scrap recycling facility.

**B. Preliminary Assessment Results**

See Polrep 1.

**C. Situation**

The final section of Site fence, in the soil excavation area, was completed on July 25, 2006. A punch-list of deficiencies regarding the fence is being addressed by the PRP's subcontractor. The soil generated from the posthole excavations was sampled, analyzed and determined to be nonhazardous. The rolloff containing this soil was shipped to Clean Earth of Philadelphia, Inc., for disposal on July 5, 2006. The PRP has been placing crushed stone over the operational area of the scrap yard to eliminate the potential of direct contact with contaminated soil. Additional crushed stone was staged on-site for placement into the areas where the various types of scrap metal are temporarily stored.

The field work portion of the soil excavation being conducted without an AOC and jointly funded by the PRPs has been completed.

**IV RESPONSE INFORMATION**

**A. Status of Actions**

Work required by the AOC is continuing.

**B. Next Steps**

"No Trespassing" signs will be attached to the fence and the placement of stone into the temporary storage areas will take place over the next two weeks. A final inspection of the fence will be conducted to assure all deficiencies on the punch-list have been addressed.

**C. Key Issues**

The Site has been proposed for placement on the National Priorities List.

**V COST INFORMATION**

Site work is being funded by the PRP.

**VI. Disposition of Wastes.**

The following table lists the waste quantities shipped for treatment/disposal as of 8/1/06.

Waste stream	Loads	Quantity	Disposal/ Treatment	Disposal Facility
Nonhazardous Soil	1	10.7 tons	Landfill	Clean Earth of Philadelphia, Inc. Philadelphia, PA
<b>TOTALS</b>	1	10.7 tons
